

Great Bible Apps for kids and families

The Parent Cue App is designed to help every parent do something each week to help move their child toward a deeper faith and a better future. Our lives are busy. As parents, we want to prioritize our children. We want to do everything we can to invest in them relationally, to guide them developmentally and to help them grow in their faith in Christ. But it's just so easy to get caught up in the urgent day-to-day business of life.

Every parent has 936 weeks of influence from the time their child is born until they graduate. Parent Cue helps you count the weeks and connects you with practical things to read, do or say to help you engage with the heart of your child this week. Designed for parents of babies through high schoolers, these prompts will come in the form of videos and things to talk about in the morning, at meal time or while you are cuddling with your toddler or driving in the car. Each week there's even a Phase Cue to help you understand the developmental phase your child is in today. 936 weeks. You don't want to miss a single one.
